MICHIGAN Department of Education

FY26 Section 31a
Annual District Transparency Report

Landmark Academy

1. What was the total amount of the district's Section 31a allocation for the 2025-26 school year?

   $918,666.35

2. Describe the district's methodology and decision-making for distributing Section 31a At-risk grant funds to target the buildings with the highest needs.

   The district uses a collaborative, data-driven process to determine the distribution of Section 31a At-Risk grant funds. The School Improvement Team reviews multiple sources of data, including academic achievement, student growth, attendance, behavior, and other indicators of student risk, to identify the buildings and student populations with the greatest needs. The team analyzes trends, identifies achievement gaps, and prioritizes evidence-based interventions that will have the greatest impact on improving student outcomes. Funding is allocated based on these identified needs and is reviewed regularly to ensure resources remain aligned with district priorities and the evolving needs of students.

3. What evidence-based interventions and services were implemented with the Section 31a At-risk grant funds during the 2025-26 grant cycle?

   Our staff are trained and utilize Orton Gillingham and LETRS. Our district also utilizes Lexia for additional intervention and support for reading.

4. In what ways has the district collected feedback from parents or legal guardians on these interventions and services provided this year?

   We send out a yearly survey to families for feedback on our interventions. We also have family events where we meet with families and get feedback.

5. Describe the method parents or legal guardians may use to provide feedback on the use of these funds.

   We use surveys, face to face meetings, and email to gather feedback from families.
